Truly excellent service! When I needed a bumper boo boo repaired, I put it out on Facebook and asked my friends for recommendations. Three different people (who didn't know each other!) said San Jose Collision was the place to go, and they were right. I brought my vehicle in early one morning then walked across the street to my Weight Watchers meeting. When I mentioned to the leader that I'd just dropped my car off there, she said, "Oh, they do wonderful work over there!" You have fans everywhere. My bumper was replaced at a reasonable cost, in a timely manner.
