Delivering Results...

“From the moment the book came out, we saw immediate results. We are getting 6 to 7 new customers per month in the Florence area. The Talking Phone Book now allows us to cover the Pee Dee area, and save a bundle on our advertising budget.”

~ Michelle Rogers, Clean Technologies

“Since the Talking Phone Book came out in April, our take-out business has doubled over the last 9 months. We know these calls are coming from your book because the only place our menu is available outside the restaurant is in the Talking Phone Book.”

~ Dell Baker, Shuckers Oysters and Raw Bar

“I would recommend the Talking Phone Book to any business who wants to increase their advertising and decrease their cost. I am now increasing my ad size with the Talking Phone Book not only because I know the value for my business, but also because your book is less expensive, covers a larger area, and works just as well as the Bell South book. Thank you for the low cost alternative your book has to offer for Florence businesses.”

~ Glen Tisdale, Tisdale Construction and Roofing LLC

“We have been advertising with The Talking Phone Book since 2001. Our ad in The Talking Phone Book brings approximately 40% of our new and referral business. My advertising is more than free because our return on investment is tremendous!”
